Your Groceries At Wholesale Your Money Back If You Want It

WE here acknowledge our gratitude for all the letters received from customers expressing their appreciation of our Consumers Wholesale Dept. and the excellent quality of the Commodities.

Every consumer may buy at wholesale and save what is now given to middlemen for their profits and expenses. The newspapers are full of reasons for more direct buying but few are showing how. We tell how and provide an easy way to do it.

It is simply a matter of changing from an old, expensive, thoughtless method to a modern, economic method of buying.

Larkin Wholesale Commodities average 20% less than retailers' prices for goods of equal quality—a trial order will convince you.

With the present high cost of living it becomes almost vital to spend every dollar where it will go the farthest.

By clubbing together with your neighbors, you can send an order every month or oftener with assurance of low freight-charges. If you have never bought by mail don't think that you cannot. You can trade with us just as safely and satisfactorily as right at home. We guarantee the purity and freshness of all Wholesale Commodities and will refund money for anything unsatisfactory. Important Notice

Wholesale prices of Canned Tomatoes, Peas and Corn have gone up, (due to the shortage in 1911 crops) but we have not increased our prices. You can buy these Canned Goods from us today cheaper than the wholesaler can purchase from the Cannery. Our forethought in buying last season means the saving of thousands of dollars to our customers.

Wholesalers have asked us to sell to them and we have declined all such offers, although by selling to them, we could make a larger profit. We are not in business to help the middleman make money, but to help you save money. Lay in a supply of these Canned Vegetables and profit by our cooperation. Also tell your neighbors of this exceptional opportunity.

Our Prices Are Low And Our Quality High

Larkin Consumers Wholesale Dept.

THE Consumers Wholesale Department of Larkin Co. offers commodities on which a substantial saving can be made. It is distinct from our Product-with-Premium plan, but Larkin Products at one-half their list-prices may be included as a part of any order of Wholesale Commodities.

How to Order—Please Read Following Conditions Carefully

1. Cash in full must accompany orders for all Wholesale Commodities. Neither Certificates, Due Bills nor Coupons will be accepted.

2. A \$10.00 Cash Order is the smallest that will be accepted alone. A \$10.00 order, however, may combine both Wholesale Commodities at list-prices and Larkin Products at one-half list-prices. For Larkin Products included in such an order no Premium, Certificate or Cash Present will be given.

Example: \$7.00 worth of Wholesale Commodities at net list-prices	.	.	.	\$ 7.00
\$6.00 worth of Larkin Products at one-half of list-prices	.	.	.	3.00
Total Cash Price	.	.	.	\$10.00

3. An order for any amount of Wholesale Commodities, paid for in advance, may be added to a regular \$10.00 order for Larkin Products and Premiums.

Example: \$10.00 worth Larkin Products with Premium	\$10.00
\$1.25 worth Wholesale Commodities at net list-prices	1.25
Total Cash Price	\$11.25

4. No Premiums, Certificates, Due Bills, Cash Present or Coupons are given for orders of Wholesale Commodities, whether sent with a Larkin Product order or alone.

5. The giving of Premiums, Certificates, Due Bills, Cash Presents and Coupons for regular Larkin orders will continue precisely as heretofore, but Commodities of the Consumers Wholesale Department are quoted at net cash prices and include no Premiums under any circumstances.

Thirty Days' Trial. After Thirty Days' Trial if the purchaser finds any goods unsatisfactory, we will remove them and refund all money paid including freight- and delivery-charges.

Price-Changes. The prices printed hereon are subject to change without notice. Most changes will, however, be so slight that your orders will be adjusted and filled at current prices.

A New and Separate Money-Saving Plan

FOR many years the patrons of our Factory-to-Family business, wherein we save them half of the usual retail prices of the Products of our own and associate factories, have asked us for additional commodities. In nearly every instance when a saving of one-half the usual retail price was possible, we have responded by engaging in the manufacture or preparation of the commodities desired. A great many commodities have been asked for, however, of which the cost of production is more than half the usual retail price. In other words, there is a great deal of staple merchandise that does not double in price as a result of the handling by wholesale and retail merchants and so could not be added to our list of Products on which we save you one-half.

The Consumers Wholesale Department of Larkin Co. is entirely unrelated to our Factory-to-Family Plan and is formed to supply Larkin Customers with some of those Commodities which do not double in price on their way to the consumer, but on which there still can be made substantial savings, besides the advantage of the freshest, cleanest and purest goods. This Department will not attempt to handle those commodities in which

it would simply compete for the business at equal prices with the merchants near you. Such goods had better be purchased from the nearest merchant who can give you the best quality, value and service. Nor will we be ambitious to deal in the whole range of merchandise carried in a large department store; we shall only offer carefully selected specialties of thoroughly good quality, the kind most economical to the consumer; goods strictly of Larkin quality.

Price Lists of Wholesale Commodities will be published on the first of Jan., Mar., May, July, Sept. and Nov., and the prices will be subject to change without notice. Most changes will, however, be so slight that your orders will be adjusted and filled at current prices. Unlike Larkin List-prices for Larkin Products, the prices quoted by the Consumers Wholesale Department are net, subject to no deduction and will include no Premium.

Consumers may practice real cooperation by dividing a \$10.00 purchase of Wholesale Commodities among two or more.

Fancy Patent Flour

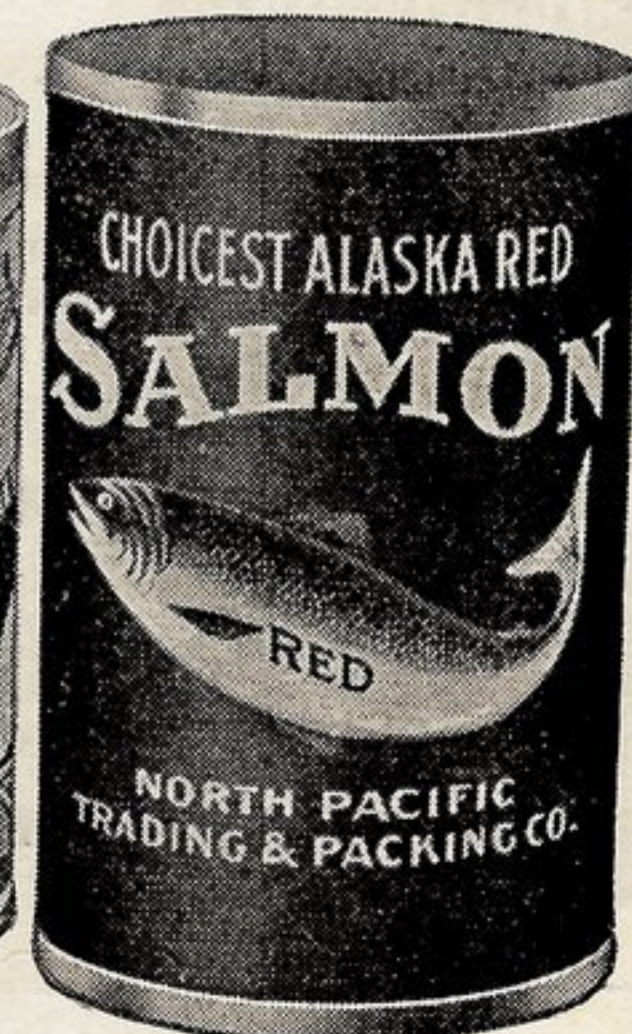

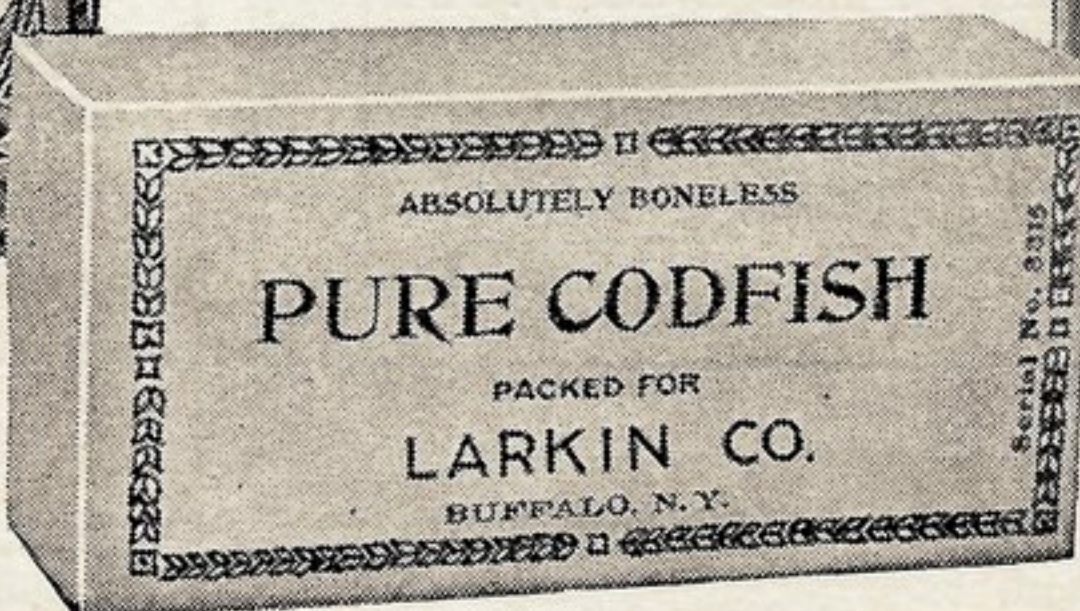

Larkin Flour is the highest grade patent spring wheat flour. It is milled from the choicest No. 1 Northern hard wheat by one of the oldest and most reliable millers of high-grade flour in the Northwest.

Larkin Flour is particularly a bread flour yet it can be used with very good results for making pastry.

We pack our flour in strong, sanitary fibre-bags, each holding a quarter-barrel, and as an extra protection we enclose each bag in an outer, closely-woven burlap sack. It is thoroughly protected against moisture and dust and we guarantee safe delivery.

It will pay you to familiarize yourself with our flour and to buy from us. If,

in sending us an order for other groceries, you find it will weigh less than 100 pounds, add a sack of flour and you will find that the freight on the flour will cost almost nothing, as 100 pounds freight is the minimum amount charged for by most railroads. **Per Sack, quarter-barrel, 49-lbs. (Usual Retail Price \$1.80) \$1.45**

The Larkin Catalog Free To Your Friends

Please write below, the names and addresses of four of your lady friends who are not now users of Larkin Products or members of Larkin Clubs. We will acquaint each with the advantages of Larkin Factory-to-Family dealing and give them an opportunity to receive a copy of our new Spring Catalog Free.

They will appreciate it and you will be doing us a favor for which we thank you.
